ANQUAN YANG

I. Basic Info Introduction

德清

Deqing, in northern Zhejiang Province, is the earliest place in the world to carry out freshwater pearl mussels cultivation.

德清，位于浙江省北部，
是全球最早开展淡水珍珠人工培育的地方。

Deqing Freshwater Pearl Mussels Composite Fishery System

德清淡水珍珠复合养殖系统

During the Southern Song Dynasty, Ye Jinyang invented the Shelled Pearl Mussel Cultivation Technique in Deqing, which began the history of human cultivation of freshwater pearls.

南宋时期，叶金扬在小山漾（德清）一带发明了“附壳珍珠养殖方法”。

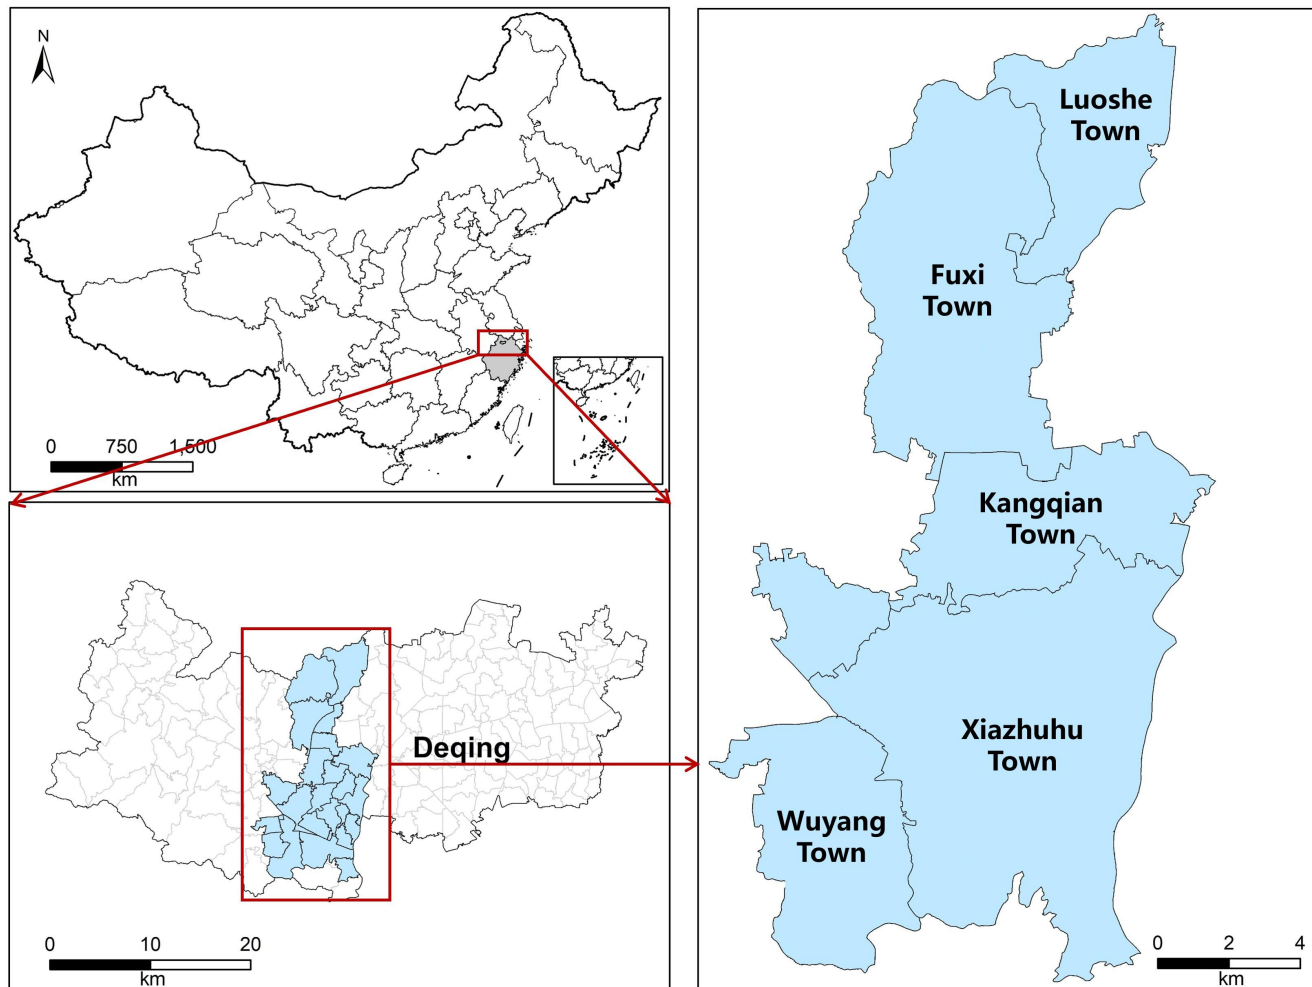

I. Basic Info Introduction

Range

核心范围

The system covers 5 towns and 23 villages.

系统位于浙江省北部，以德清县东部水网平原地区为系统范围，涉及5个乡镇，遗产面积达140km²。

Location Map 区位图

I. Basic Info Introduction

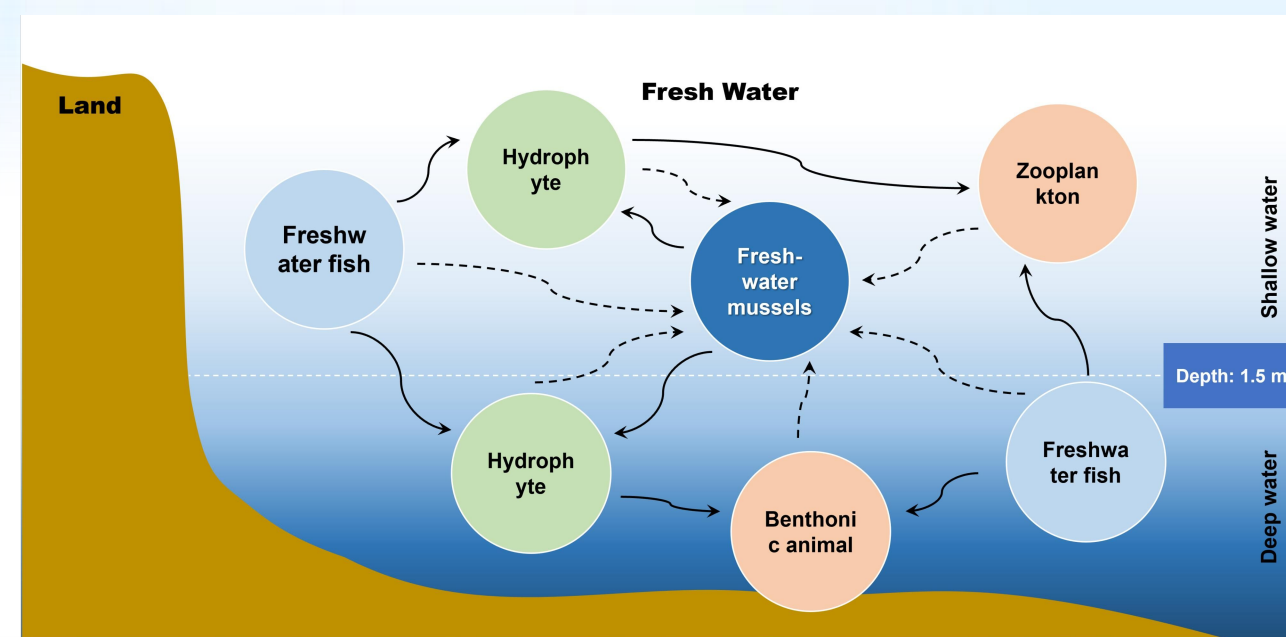

population

The permanent population of the heritage site is about 45,000 people 遗产地常住人口约4.5万人

II. Characteristics

An efficient Circular Ecosystem

"fish-mussel co-cultivation" composite system

鱼蚌混养 水中循环

an ecological agricultural system with an intricate patchwork of "yang (pools)-ponds-arable lands-forested areas-villages" "漾-基塘-耕地-林地-村庄" 镶嵌分布

II. Characteristics

Freshwater mussels and fish species repository in east Asia

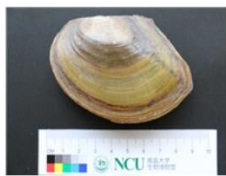

东亚地区淡水蚌类和鱼类品种资源库:

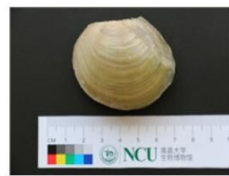

Hyriopsis cumingii

Cristaria plicata

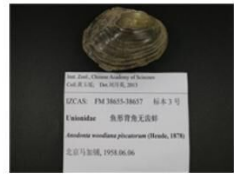

Anodonta woodiana

*Anodonta woodiana
pacifica*

*Anodonta woodiana
elliptica*

*Anodonta woodiana
piscatorum*

Lamprotula leai

*Lamprotula
rochechouarti*

Unio douglasiae

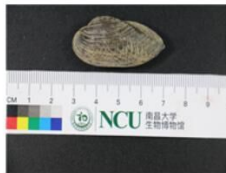

Hyriopsis schlegeli

Unio continentalis

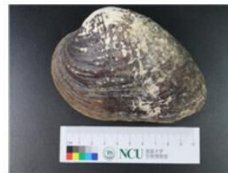

Unio pictorum

Unio persculpta

Anodonta fluminea

Lamprotula mansuyi

- more than 10 types of mussels that can be used for pearl cultivation, including *Cristaria plicata* and *Hyriopsis cumingii*. 当地有褶皱冠蚌和三角帆蚌等10余种育珠蚌类。
- More than 40 species of freshwater fish. 包含“四大家鱼”的40余种淡水鱼类。

青鱼 *Mylopharyngodon piceus*

草鱼 *Ctenopharyngodon idella*

鲢鱼 *Hypophthalmichthys molitrix*

鳙鱼 *Hypophthalmichthys nobilis*

II. Characteristics

This project will protect the freshwater mollusk germplasm resources and contribute to the sustainable development of freshwater shellfish in China, the protection of biodiversity, and the harmonious development of nature and humans.

该项目将从源头上保护淡水贝类种质资源，在中国淡水贝类可持续发展、生物多样性保护以及自然与人类和谐发展方面发挥应有贡献。

Integrated Demonstration Project of Freshwater Pearl
Clam Breeding and Promotion

淡水珍珠蚌育繁推一体化示范项目

III. Complete Pearl Industry Chain

Cultivation

养殖

Processing

加工

Product sales

销售

Culture tourism

文旅

Deqing has formed a comprehensive pearl industry chain including freshwater pearl cultivation, processing, sales, and cultural tourism.

德清形成了从河蚌养殖到护肤品、饰品加工，再到产品销售，文化与旅游产业的珍珠全产业链。

III. Complete Pearl Industry Chain

Nearly **3000** people directly engaged in the deep processing industry of freshwater pearls, nearly **10000** retail endpoints for products, more than **30000** jobs across its value chain. The annual production value of pearl farming and deep processing is over 7 billion yuan.

在浙江德清淡水珍珠复合养殖系统中，直接从事淡水珍珠深加工产业的从业人员近 3000 人，产品零售终端近万个，上下游带动就业 3 万余人，珍珠养殖与深加工年产值超过 70 亿元。

The world's largest deep processing base for freshwater pearls

全球最大的淡水珍珠深加工基地

China stands as the global pinnacle in freshwater pearl production, commanding a staggering **90%** of the worldwide yield.

中国是全球最大的淡水珍珠出产国，产量占全球珍珠产量的90%。

The total amount of deep processing pearls in Deqing is **100** tons, accounting for about **10%** of China's national freshwater pearl yield.

遗产系统的珍珠深加工总量年均100吨，占全国淡水珍珠总产量的10%。

III. Complete Pearl Industry Chain

Created a Scientific and Technological innovation service platform

打造珍珠全产业链科技创新服务平台

Submicron powder
technology

An illustration showing a pair of tweezers holding a single pearl above a small white dish filled with fine white powder. Below the dish is a larger dish containing several pearls.

Pearl fermentation
technology

An illustration of a petri dish containing a glowing blue pearl, with a pipette tip positioned above it, suggesting a laboratory or fermentation process.

Pearl peptide
purification technology

An illustration of a funnel containing several pearls, with a single pearl being collected in a small container at the bottom, representing a purification process.

"Pearl+" scientific
compounding technology

An illustration of a pearl being held by a pair of tweezers, with a test tube and a pipette nearby, symbolizing scientific compounding.

IV. Exploration, Protection and Inheritance of Agricultural Heritage Systems

The world's largest freshwater pearl museum

建设全球最大的淡水珍珠主题博物院

IV. Exploration, Protection and Inheritance of Agricultural Heritage Systems

The pearl experiential education curriculum with the theme of agricultural heritage system is very popular, receiving at least 30,000 primary and secondary school students every year.

以农业文化遗产为主题的珍珠研学旅游非常火爆

IV. Exploration, Protection and Inheritance of Agricultural Heritage Systems

01

Draw from traditional techniques to keep promoting ecological aquaculture.

借鉴传统技术，
大力发展生态养殖。

02

Extend the pearl industrial chain, and expand pearl's advanced processing.

延长珍珠及复合养殖的产业链，
拓展深加工产品。

03

Rely on rural leisure tourism to promote pearl culture.

依托农村休闲旅游，
弘扬珍珠文化。
