

An outlook of “Agricultural and Fishery Heritage Policy of Korea”

Ministry of Agriculture,
Food and Rural Affairs

**Nationally Important
Agricultural and Fishery Heritage System**

국가중요농업유산
Korea Important Agricultural Heritage System

국가중요어업유산
KOREA IMPORTANT FISHERIES
HERITAGE SYSTEMS

**(Int'l) Adopt FAO Globally Important
Agricultural Heritage System(GIAHS, '02)**

→ Aim to achieve sustainable agriculture and an integrated rural development, conserving unique worldwide agriculture, human evolution and biodiversity

**(Domestic) Amend policy to emphasize and
utilize the resources of rural areas ('00~)**

→ The recognition in the core rural resources expanded from the "produce" only to "environment and cultural resources of the area" which effecting human senses.

"Traditional technologies and knowledge, community culture, and landscapes related to rural production activities are preserved, managed, and utilized as important agricultural heritage resources."('12~)

**Designation of Korea's Important
Agricultural and Fishery Heritage System**
(here in after KIAHS)
